

RD - GAUGE PNG/BMP 32x32 Gauge Icon

Diagram 1

Detail:

Last version of Icon consisted of too much detail - Did not read well - Pixelation excessive. Translates at a distance but falls apart in close-up view.

Diagram 2

Detail:

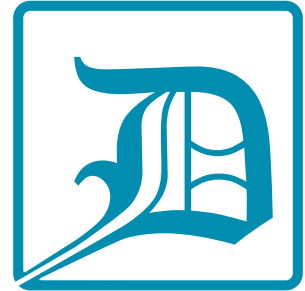

Updated - sample - Minimized ticks and cut warning bar to 2 colors. Dropped "metal" gradient to 2 color and darkened colors to stand off page better. Put Tick marks at 45 degree angles to each other to minimize pixelation and omit the bottom tick mark. Expanded needle and removed shadows and gradients, Put at 270 degree to omit pixelation

Diagram 3

Detail:

2nd Updated - sample - Grey bar in place of tick marks - tri color warn bar. Dropped "metal" gradient to 2 color and darkened colors to stand off page better. Expanded needle and removed shadows and gradients, Used red instead of orange to pull needle off page - 270 degree to omit pixelation
